

**Inherited Syphilis.**  
Scrib's Specific (S. S. S.) cured my little boy of hereditary syphilis, which broke out all over his face. For a year he had suffered, and I had given up all hopes of his recovery when at length I decided to use S. S. S. After using a few bottles he was entirely cured. For a symptom now remains of the disease. This was three years ago.  
Miss T. L. MATTHEWS, Asheville, N. C.

**S. S. S.**  
In the early part of last year I had a violent attack of rheumatism, from which I was confined to my bed for over three months and at times was unable to turn myself in bed or even raise the cover. A nurse had to be in constant attendance day and night. I was so feeble that what little nourishment I took had to be given me with a spoon. After calling in the best local physicians, and trying all other medicines without receiving any benefit, I was advised by friends to try Scrib's Specific (S. S. S.). I discontinued all other medicines, and took a course of S. S. S. thirteen small bottles, which effected a complete and permanent cure.

## TO KILL THE CZAR.

A Russian Suicide Leaves a Confession of Conspiracy

By Which He Was Chosen to Slay Alexander III.

**Rather Than Commit the Deed He Takes His Own Life.**—Several of His Accomplices Arrested.—The Czar and the Warning of Mme. Tschetrikova.—The Pope and Francis Joseph—Foreign.  
LONDON, April 3.—A dispatch from St. Petersburg to The Daily Telegraph says that a man who committed suicide there yesterday left a letter in which he confessed that he had been engaged in a conspiracy against the life of the czar.  
The letter said that the writer and his fellow-conspirators had drawn ballots to decide which should take the czar's life and the lot had fallen to the writer, who, rather than commit the deed, had determined to take his own life. The letter also gave the names of the writer's accomplices, several of whom have been arrested.

**Mme. Tschetrikova's Warning.**  
St. Petersburg, April 3.—It is reported that Mme. Tschetrikova, the Russian lady who recently wrote a letter to the czar calling attention to the political situation of the country, has been secretly conducted to Siberia.

Another report received here states that Mme. Tschetrikova was released by order of the czar, and that the czar wrote upon the margin of the letter sent him by Mme. Tschetrikova: "This is bitterly written. Nevertheless the author can be left alone."

**A Monument to Hamarek.**

Several high officials in the mining districts of China and Manchuria, including two owners of gold mines, have, according to Siberian newspapers, been imprisoned for peculation and bribery.

Letters of a most friendly nature have been exchanged between the czar and Prince Bismarck. In his communication the prince expressed the belief that recent events would in no wise disturb the relations between the two empires.

The czar and empress recently paid a visit to the military prison. They conversed with the prisoners and asked them to state the causes which led to their imprisonment. The czar ordered the release of sixty of the prisoners and a reduction of sentences of sixty others.

The London Times says that Prince Bismarck, in relinquishing the office of chancellor with the political office, showed the same patriotic foresight that has been the distinguishing trait of his career. "As to the future of Germany," the paper adds, "there is not the least reason for lugubrious views."

Diocesan Convention to Be Held at Charleston, S. C., to Solve It.

CHARLESTON, S. C., April 3.—The diocesan convention which will meet here on May 7, will have again to wrestle with the negro problem. The congregation of St. Phillip's church, in this city, promises to divide on the question.

Her eyes are not fierce. They are filled with tenderness, that tenderness which is the origin of all socialism.' For Louise Michel is more a Socialist by heart than by reason."

**THE OCEAN RACER'S FATE.**  
What Happened to the Engines of the City of Paris.  
LONDON, April 3.—One of the engineers of the City of Paris says: "What has happened to the City of Paris is something that nobody knows. It is certain that something gave way, but what that was, and how it managed to produce the general smash, is as yet a mystery. The City of Paris was an experiment in several respects. Nobody on board is in any way to blame for the accident. If anybody is to blame it is the makers of the boilers for the tank with the rank of major general was referred, and at 5:30 p. m. the house adjourned."

The reason RADAM'S MICROBE KILLER is the most wonderful medicine, is because it has never failed in any instance, no matter what the disease, from 1:30 P.M. to 1:30 A.M. to the simplest disease known to the human system.

The scientific men of to-day claim and prove that every disease is caused by microbes, and RADAM'S MICROBE KILLER exterminates the microbes and drives them out of the system, and when that is done you cannot have an ache or pain. No matter what the disease, whether a simple case of Malaria Fever or a combination of diseases, we cure them all at the same time, as we treat all diseases constitutionally.

R., consisting of 20 acres of beautiful land, nicely shaded and in grass, with a fine large brick house containing 10 rooms, together with barns, stables, fine large garden and all necessary outbuildings.
